

a new way si born

 OPERA

**Not just manufacturers,
but solution partners**

It's our new way of being

ICI

POWERING EVOLUTION

WHY opera

OPERA is not what we do. It's who we are!

OPERA is our new project approach: a method that evolves the role of ICI Powering Evolution from a mere plant manufacturer into a true strategic partner in the energy transition.

We don't simply provide technologies. We listen, analyse and interpret our customers' needs including those that have not yet been expressed.

The meaning of OPERA

O	bservation: analysis of the context and objectives
P	lanning: tailored, integrated and scalable technical development
E	nergy: sources, technologies, efficient and sustainable solutions
R	esources: selection and management of materials, suppliers and operational teams
A	ctivation: realisation, installation, commissioning and advanced plant management to ensure long-term performance

What makes OPERA different

- A single partner, from preliminary analysis to after-sales support
- The ability to identify unexpressed needs and develop innovative solutions
- Continuous services and monitoring to maintain performance over time

OPERA is for those looking for:

- Greater energy efficiency
- Reduced operating costs
- Long-term reliability and continuity
- A partner who integrates products, engineering and services
